

Mr. Kongkiat Teekamongkol

Managing Director

Camfil Thailand

Mr. Kongkiat Teekamongkol has over 20-year of experiences in leading and managing both local and international companies in the APAC region in the disciplines ranging from Aviation, Automotive Retailers, Railway Signalling to Power Plant Construction. He worked as an electrical engineer in the early part of his career and gradually moved up to management position assuming various positions such as supply chain, sales & marketing and finally managing director position. Since 2016, Mr. Kongkiat has been working for Camfil Thailand – an industry leader in air filtration, as the Managing Director responsible for the full profit and loss of the business operation with the current workforce of 65 hardworking and service-minded people. In 2018, besides Thailand, four more countries namely Cambodia, Laos, Myanmar and Vietnam were added to his territory coverage and he has been managing five countries ever since. As Thailand aims to achieve carbon neutrality by 2050, he believes Camfil products can play an important part in improving quality of life, driving down power consumption through product innovation and prolonging product life time to reduce waste going to the landfills. Let's make Clean Air accessible to All with the least impact to the environment.

Mr. Kongkiat earned an MBA degree from Bangkok University with first class honour and a Bachelor of Science degree in Electrical Engineering from University of Florida.
